4. Please see the revised answer to Question 16. of the Questions and Answers.

Q.16 Can you provide further clarification on assumptions we should make on the current condition of the Government-furnished equipment, i.e., what we can assume we will need to replace over the course of the contract so that we can continue to deliver state-of-the-art equipment to EPA?

A16. To the best of our knowledge all of the government furnished property/equipment is in functional order, however the government furnished property/equipment will be furnished AS IS , and will be retired once its useful life is over. The contractor is responsible for having all property/equipment necessary to perform the tasks in the Statement of Work.
